WHEELS

HEAVY DUTY SWIVEL CASTER

BASSICK-CANAPHIN.

3" swivel caster. The caster has a hard composite wheel with a steel swiveling mounting base. The swivel portion has ball bearings. The wheel has a metal bearing. The rectangular mounting base is 3-1/8" wide x 4-1/8" long. The overall height of the caster is 4" nominal. The base has four 5/16" dia. mounting holes. The bolt center lines are 2-3/8" apart on the width axis and 3-3/8" apart along the length axis.

Stock #CAS9851

CASTER SET

Consists of four light duty swivel casters. All of the casters have a ball bearing swivel and a rectangular mounting base with mounting holes. The bases are 2-3/4" wide x 1-1/4" high. The four mounting holes are designed to accept 3/16" dia. mounting screws. The holes are spaced 1-3/16" apart along the width axis and are 13/16" apart in the opposite direction. The caster wheels are a rigid black plastic and the axles run directly on the plastic wheels. The wheels are 1-17/64" in dia. and are 35/64" wide. The height of the wheels in respect to the bases is 1-5/8" nom. All metal parts are steel and are cadmium plated.

Stock #CAS2052

HEAVY DUTY SWIVEL CASTER

P.J. mfg. 4-1/2" wheel dia. swivel caster. The caster has a hard composite wheel with a steel swiveling mounting base. The swivel portion has ball bearings. The wheel has a metal bearing. The rectangular mounting base is 4.0" wide x 4-1/2" long. The overall height of the caster is 6-3/8" nominal. Base has four 3/8" wide slotted mounting holes. The bolt center lines are about 2-3/4" apart on the width axis and about 3-3/8" apart along the length axis. Grease nipples are provided on the swivel bearing and the axle bearing for lubrication.

Stock #CAS2500

HEAVY DUTY SWIVEL CASTER WITH BRAKE

COLSON. 5" dia. wheel swivel caster. Medium hard composite wheel with a steel swiveling mounting base with ball bearings. The wheel has roller bearings. Bearings are provided with grease fittings. Heavy duty mechanical brake. Stepping on one side of this lever actuates the brake and stepping on the opposite side of the lever releases it. The rectangular mounting base is 4" wide x 4-1/2" long. The overall height of the caster is 6-1/2" nominal. Base has four 7/16" dia. mounting holes with bolt center lines 2-7/8" apart on the width axis and 3-3/8" apart along the length axis. Weight 6 lbs.

CONTAINERS

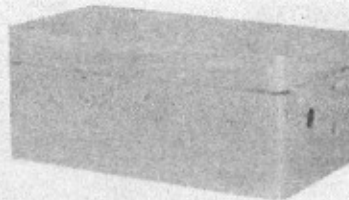

FEET — CONTAINERS

ALUMINUM CARRYING CASE

Two-piece aluminum waterproof construction. Dimensions: (exterior) 23-1/2" long x 15" wide x 7-1/2" high. The upper and lower sections are locked by six heavy-duty catches. Has built-in pressure equalizing valve and carrying handle. Used, good condition.

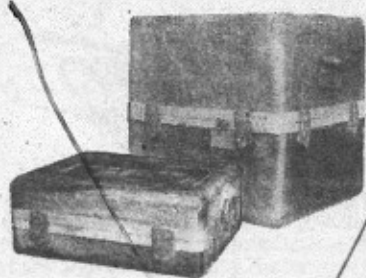

Stock #CC9003

PLASTIC PROJECT BOX

PC-GEHAUSE, #M242/02242000 03.12 24 10. Very high quality industrial plastic enclosure molded from a sturdy light gray polymer material. The lower section depth is 3". The lid depth is 1". The overall dimensions when assembled are: 4-11/16" wide x 9-3/8" long x 4" high. The lid section has an integral sealing gasket in a recess around the lid profile. The box has rounded corners. The lower section has a number of small round holes cut into the back, top and bottom surfaces. Most of the holes are small and should not detract from the usefulness of this item to any large extent. The lid does not have any openings other than holes for the securing screws. Provided with screws required to fasten the two parts securely together.
